

## WHAT IS THE ACHIEVERY?

The Achievery is a free digital learning platform designed to make distance learning more entertaining, engaging and inspiring for today's connected students wherever they are – at home, in the community or in the classroom. The Achievery is created by AT&T, in collaboration with Warner Bros. Discovery. It's part of the [AT&T Connected Learning](#) program and a company-wide commitment to narrow the digital divide and homework gap.

## WHY NOW?

The Achievery was created with parents and caregivers in mind to help support distance learning. Nearly 80% of both parents and teachers think that their kids or students would be more interested in learning tools that include popular entertainment.<sup>1</sup>

The Achievery helps connect students to a new world of digital learning by offering **entertaining educational content paired with engaging lesson plans and learning activities**. All learning activities are designed for students K-12, created by leading education nonprofits, aligned to academic-standards and reviewed by education experts.

## HOW IT WORKS:

Parents, students (age 13 and older) and teachers can create a free account on The Achievery. Parents or caregivers can also create sub-accounts for children who are under 13. To get started, visit [TheAchievery.com](#) or download the app. Create the account that's right for you, then search for lesson plans and learning activities by subject, grade-level, academic standards or media type.

Available subjects will include **Social-Emotional Learning, The Arts, English Language Arts, Science, Social Studies, Math, Technology and Engineering and Digital Literacy**. The platform's library will continue to grow as new content is added across subjects.

## Featured Collaborators

With a library of iconic content from leading entertainment and education collaborators, The Achievery helps stem the tide of learning loss, narrow the homework gap and connect students everywhere to a new world of digital learning.

Visit [TheAchievery.com](#) and create an account to get started today!
